

Exbander™ Precision EP60

**Cost Effective and Powerful
WAN Optimisation for Branch Offices
and Small Organisations.**

With WAN optimisation from DBAM, users are more productive, data moves faster and applications perform seamlessly.

The award winning DBAM Exbander™ Precision EP60 WAN optimisation device is designed to provide the highest level of WAN performance across the broadest range of applications, including ERP and CRM systems, file sharing, email, backup, SSL and document management.

Positioned to meet the requirements of small offices, regional hubs and establishments, the EP60 can support up to 100 users. Designed with a small, quiet desktop format that can run on a desk as opposed to a dedicated server room or data centre, installation is quick and easy.

With 44% of all companies reporting bandwidth congestion at the WAN or LAN (source IDC), the EP60 is perfectly positioned to deliver a high performance and scalable solution, overcoming both bandwidth and latency problems to deliver LAN-like performance to branch offices.

KEY FEATURES

Accelerate a broad set of important business applications.

Define and control service levels for all key business applications.

Deliver LAN-like speed and reliability to all applications – voice, video and data.

Serverless Branch Office - consolidate and centralise critical files, email and application servers and storage from remote branches, cutting complexity and cost and improving productivity.

Reduce bandwidth utilisation, defer costly bandwidth upgrades.

Product Sheet
Specification – EP60
SHAPING

WAN Capacity - Total Throughput (in & out)	4Mb/s (option to 10Mb/s)
Profile	Desktop
Optimised TCP Connections	25
IP Flows	3,072
Shaping Policies	1,024
Bandwidth Management	Yes
Compression	Yes
Data Reduction	Yes
Acceleration	TCP & CIFS
QoS	Yes
Failover	Yes
Load Balancing	Yes
Routing	Yes
Analysis & Reporting	No
Data Store Capacity	120GB
LCD & keypad	No
Precision Start Configuration & Management Suite	Yes

POWER & PHYSICAL SPECIFICATION – EP60

Power	60w
VA	Dual 110-240v AC
Temperature	0- 45°C (32- 113°F)
Relative Humidity	5%-95% RH
System Dimensions	21.4 (W) x 15 (D) x 3 (H) cm
Packaging Dimensions	34cm (W) x 31cm (D) x 10cm (H)
Gross Weight	5.2kgs (11.46 lbs)

Ordering Information - EP Devices & Licences

PRODUCT NAME	DESCRIPTION	PARTCODE
EP60 Chassis	EP60 Chassis including FREE Software License	EP60
Choose a support package from the options below:		
Silver Support EP60	12 month Silver Support Package for EP60	SISUP-4-EP60
Gold Support EP60	12 month Gold Support Package for EP60	GOSUP-4-EP60
Choose to upgrade from the 4Mb/s Throughput License included as standard to the option below:		
Throughput License(10-EP60)	Upgrade to 10Mb/s Throughput License for EP60	10MbWALIC-EP60
Throughput License(8-EP60)	Upgrade to 8Mb/s Throughput License for EP60 NEW	8MbWALIC-EP60
SOFTWARE MODULES FOR EP60		
IMView	IMView Software Module for the EP60	IMV60
EHS60	Easy Hot Spot Software Module	EHS60
WFS	Windows File Sharing Acceleration Module NEW	WFS60
User 100	100 User Licence for the EP60	USER100
EXBANDER PRECISION REDUNDANT UNITS		
EP60	EP60 Redundant Unit	SBEP60
